

Connect Now is an app for mobile and tablet devices that allows you to receive notifications from Connect on your device. Connect Now also provides a stream of the Notices and Discussions related to you.

The type of notifications you receive and whether they are via email or mobile notification are settings you can manage in the **My Connect** tab in Connect. You must access Connect through your browser to make changes to your settings. For more information about these options, please refer to the Preferences and Notification Guide that can be found in the Guides area of the **Learn** tab.

The Connect Now app is available for Teachers, Students and Parents on iOS and Android devices. To access the app, visit the Apple App Store or Google Play Store and Search for Connect Now.
