

Embedding media content into Connect

**Login to Connect at
connect.det.wa.edu.au**

Contemporary teaching and learning incorporates the use of multiple media types and modes. Connect enables mainstream media provided online to be easily **embedded** into **Classes** and **Communities**.

Embedding videos into Connect

Audio and video media provides rich and engaging material assisting teachers to begin teaching new and existing concepts. Having that material in learning content alongside other learning resources keeps students focussed and helps teacher scaffold their learning effectively.

A

Adding media content to a section

Select **Content** on the left. Click the **+** icon to add a digital resource to a section.

B

Embed Media

Click on the **Embed Media** menu option.

C

Adding a title to your resource

Enter the name for the media in the **Caption** text box.

Pasting the Embedding Code

The embedding code must be obtained from the site hosting the media on the web. The following pages show you how to obtain the code, depending upon the media streaming service you are accessing.

D

NOTE: The icons serve as hyperlinks to the streaming service.

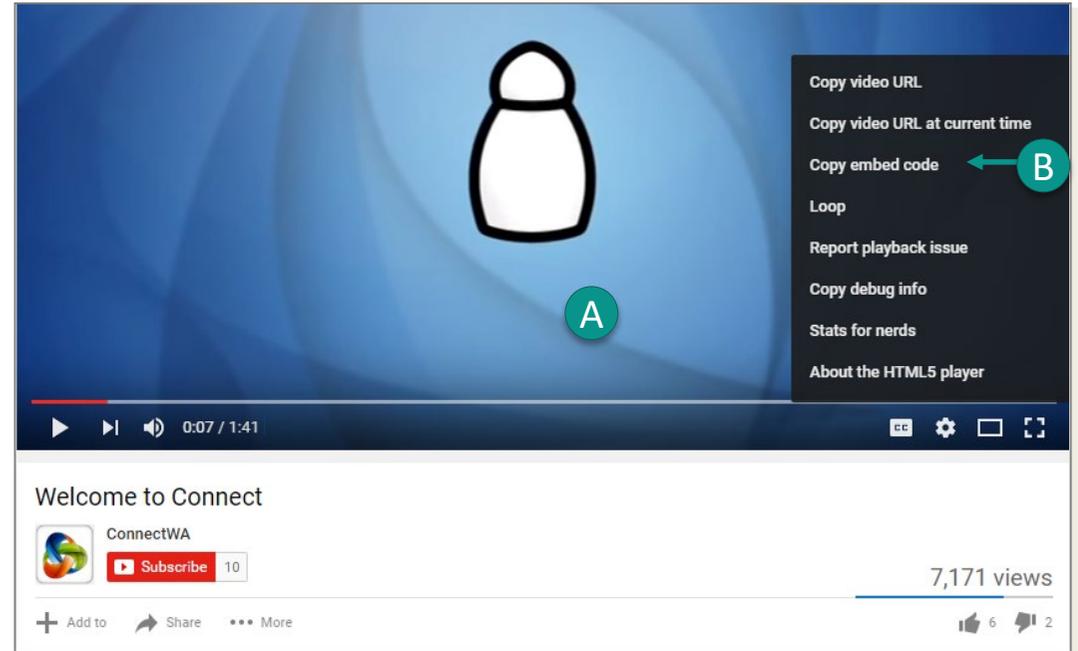

The screenshot shows the Connect interface for 'Yr 11 - English - Unit 1'. On the left sidebar, the 'Content' menu item is highlighted with a red circle 'A' and an arrow pointing to it. In the main content area, a 'Learning Resource' dropdown menu is open, showing options: 'File', 'Embed Media' (highlighted with a red circle 'B'), and 'Text'. The main content area displays 'Week 1 - Introduction' with a list of four items.

The screenshot shows the 'Upload an Audio or Video' form. It has a 'Caption' field with a red circle 'C' above it. Below that is a 'Paste Embedding Code' field with a red circle 'D' above it. At the bottom, there is a list of supported streaming services: KHANACADEMY, TeacherTube, TED, vimeo, YouTube, SOUNDCLOUD, and amara. A note states: 'Connect supports media from the following websites. NOTE: TeacherTube videos may not display correctly in IE8 and below.'

YouTube

YouTube provides billions of video from a wide variety of contributors. There are many educational videos and channels to choose from.

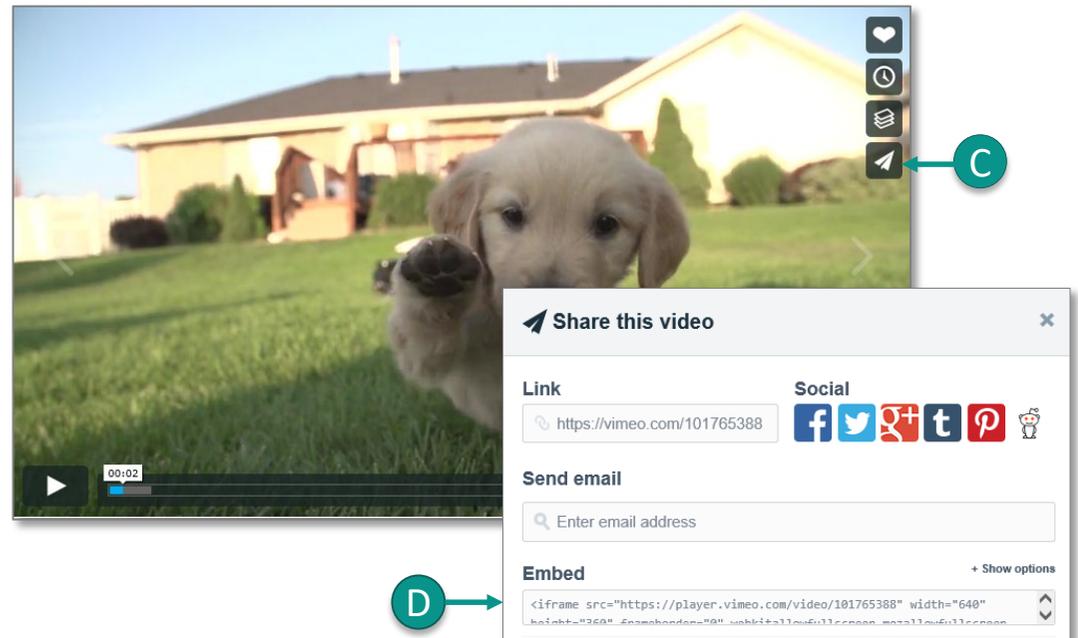

- A** **Access the video in YouTube**
After you have selected the video you want, right click on it whilst it is playing.
- B** **Copy embed code**
Select **Copy embed code** option. Paste the embedding code into Connect and Click **Save**.

Vimeo

Vimeo is a video sharing platform that offers high-quality tools for hosting, sharing, and streaming videos.

- C** **Access the video in Vimeo**
Once you have found the video you like, click on the paper aeroplane (share) option.
- D** **Copy embed code**
Copy the **Embed** code and paste it into Connect and click **Save**.

TeacherTube

TeacherTube is a platform for sharing instructional videos and content for teachers and students.

A

Access the video in TeacherTube

Once you have selected the video you like, scroll down to the field titled **UPLOADED BY**.

B

Copy embed code

Copy the code from the field titled **Embeddable Player**. Paste the embedding code into Connect. Click **Save**.

The screenshot shows a video player interface. At the top, there are navigation icons and buttons: 'Add to Classroom', 'Add to Play List', 'My Favorite!', 'Add to Collections', and 'Add to Group'. Below these are 'Likes' (0) and 'Dislikes' (0) buttons, a 'Rating' section with five stars and a '0.00' score, and a 'Share' section with icons for Facebook, Twitter, LinkedIn, Email, Google+, and Print. A green circle 'A' points to the 'UPLOADED BY' section, which features the channel name 'Jahiggins (2 hours ago)', a 'SUBSCRIBE' button, and a link to 'View all uploaded videos by [Jahiggins]'. Below this is a red 'Download The Video' button and a QR code. To the right of the QR code is a 'Description' field containing text about Mr. Higgins and Mr. Hacker, and a 'Tags' field with 'exploding eggs destroying eggs slow motion slow mo'. Below the tags is a 'video URL' field with the text 'http://www.teachertube.com/video/slow-motion-destroying-eggs-with-kinetic-energy-svl'. A green circle 'B' points to this URL field. At the bottom right is an 'Embeddable Player' field containing an HTML embed code: '<iframe width="560" height="315" frameborder="0" allowfullscreen="" src="http://www.teachertube.com/embed/video/348637"></iframe>'. A green circle 'C' points to the 'Embeddable Player' field.

TED

TED Talks are influential videos from expert speakers on education, business, science, tech and creativity.

C

Access the video in TED Talk

Click the **Share** icon.

D

Copy embed code

Select **Embed**. Copy the **Embed Code** and paste it into Connect and click **Save**.

The screenshot shows a TED Talk video player. The video content is a person climbing a rock face. A share menu is open over the video, titled 'Share this talk'. The menu has a close button (X) in the top right. It is divided into 'Share' and 'Tools' sections. The 'Share' section includes icons for 'TED', 'Facebook', 'LinkedIn', 'Twitter', 'Email', and 'Link'. The 'Tools' section includes 'Embed' and 'Download' icons. A green circle 'C' points to the 'Share' icon in the top right corner of the video player. Below the 'Embed' icon, the 'Embed Code' field is visible, containing the code '<div style="max-width:854px"><div style="position:relative">'. A green circle 'D' points to the 'Embed Code' field. At the bottom of the share menu is a 'Copy embed code' button. The video player interface includes a 'Share' button, 'Add to list', 'Like', and 'Rate' buttons on the right side.

Sway

Sway is a new presentation offering from Microsoft. Sways are easy to create, share and **embed**.

A

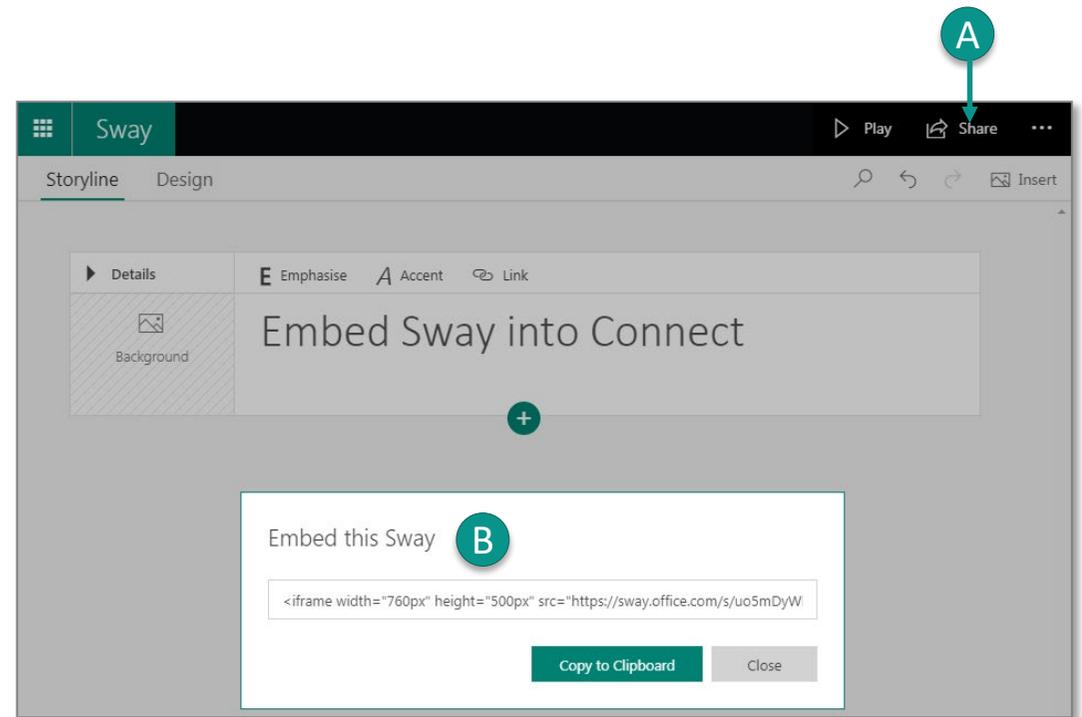

Access Sway

Once your Sway is complete, click the **Share** icon. Select **Get embed code**.

B

Copy embed code

Copy the embedding code and paste it into Connect. Click **Save**.

SoundCloud

SoundCloud is a music and podcast streaming platform that lets you listen to millions of songs from around the world, or upload your own.

C

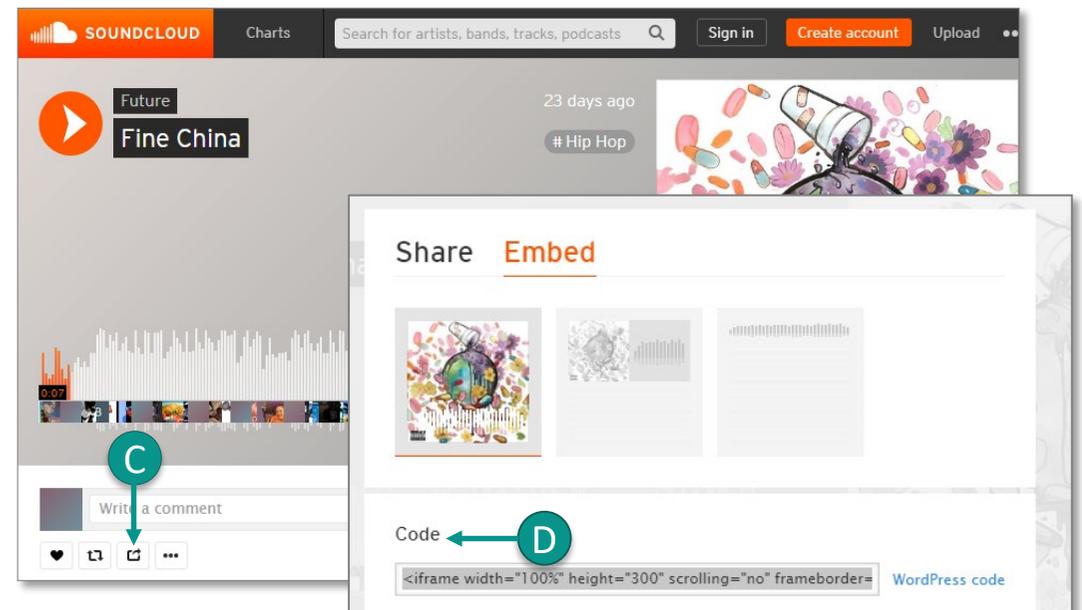

Access the audio in SoundCloud

Select the audio media that you like and click the **Share** icon.

D

Copy embed code

Select **Embed**. Copy the **Code** and paste it into Connect. Click **Save**.

Amara

Amara is a web-based tool that enables you to create captions for videos that are hosted on sites like YouTube, Vimeo and Wikimedia. Some content can be embedded from Amara and other from YouTube only (see instructions on page 3).

- A Access Amara**
Once you have selected the captioned video you like from the left, select **Get Embed Code**.
- B Copy embed code**
Copy the embedding code and paste it into Connect. Click **Save**.

Embed video

Use the following code to embed this video. See our [usage guide](#) for more details on embedding.

Paste this in your document somewhere (closest to the closing body tag is preferable):

```
<script type="text/javascript" src="https://amara.org/embedder-iframe"></script>
```

Paste this inside your HTML body, where you want to include the widget:

```
<div class="amara-embed" data-url="http://vimeo.com/110810980" data-team="null"></div>
```

Khan Academy

Thousands of videos, hosted by experts targeting specific learning areas and ear levels are available from Khan Academy.

- C Access the video in Khan Academy**
Browse the curriculum to find the video that you like and right click on the video while in play.
- D Copy embed code**
Select **Copy embed code** option. Paste the embedding code into Connect. Click **Save**.
